

INTEGRATED
DRIVE SYSTEM

T.U.T The Ultimate Trolley

T.U.T. (The Ultimate Trolley) with rising base offers amazing versatility, as it has been designed with ease of use and effectiveness in mind. The rising base will easily support a 300kg load, while the electric drive base provides the power and torque to get it moving.

Highly customisable:

- » Side rails may be fixed, fold down (top half) or completely removable
- » Lift platform dimensions can be altered to suit client's requirements
- Powerful dual wheel battery/electric drive system provides effortless movement indoors & can also be safely used on many external pathways and ramps
- Very mobile – can be easily turned on centrally located drive wheels
- Heavy duty battery/electric scissor lift to reduce manual handling risk when transferring stores on and off load platform
- Durable 200mm swivel castors on all 4 corners
- Motor drive system incorporate disc brakes, plus emergency stop button for added safety. Rear castors also fitted with manually activated foot locks

Max Load Capacity	300 kg
Length	1300mm
Height	750 mm
Width	1200 mm
